Standard Terms and Conditions of Sale

ICE Enterprises, Inc.

Effective Date: 22 June 2021

1. **Payment** – ICE Enterprises, Inc. (hereafter "ICE") offers three standard terms of payment: Net30, 50/50, and 100/0. Payment terms of Net30 require that 100% of the total payment due must be received by ICE within 30 calendar days from date of invoice issuance. Payment terms of 50/50 require that 50% of the total payment must be received by ICE before any portion of the order can be shipped. The remaining balance of 50% of the total payment will be due within 30 calendar days of invoice issuance. Payment terms of 100/0 require that 100% of the total payment due must be received by ICE before any portion of the order can be shipped. Means of electronic payment (wire transfers, ACH, etc.) can be arranged upon request. Net30 terms, the most favorable terms offered, are reserved for qualified buyers.

2. **Late Payments** – Any past due balance will accrue an initial penalty of 10% of the amount of the outstanding invoice. An additional 10% penalty will be assessed for each additional 30 days for which payment is late.

3. **Lead Time** – Items are quoted in Weeks ARO (after receipt of order). The lead-time date is the date on which the item will ship. Quotes are valid for 30 days from date of issuance unless stated otherwise in the quote. All items are subject to availability. Requests for expedited orders must be made at time of order. Exercise of DPAS ratings must occur at time of order and require a valid, active USG contract number.

4. **Shipping** – All orders consisting solely of ICE-PIC cards and modules ship via FOB Destination (ICE pays for shipping). FOB Destination standard shipping is FedEx 2nd Day Air. Buyer may specify expedited or other shipping method at buyer's expense. All other shipments are FOB Origin (buyer pays for shipping) unless explicitly stated in the quote. Orders shipped FOB Origin are considered delivered when they are picked up by the designated shipping company. Risk of loss or damages passes to Buyer upon delivery to the carrier. ICE offers "prepay and add to invoice" as a service option. A shipping estimate can be generated upon request. Purchase orders must state Prepay and Add in addition to the preferred method of shipment (Overnight, 2nd Day, Express Saver, Ground).

5. **Pricing** – Prices for all products are publicly posted on our website and may be viewed at: http://www.ice-online.com/hardware/pricing/. There are no reseller discounts or special government rates. We do not offer GSA pricing at this time. Prices listed on our public price list are best and final.

6. **Order Cancellation** – Under Virginia state law, a signed purchase order is considered a legal and binding contract. Purchaser understands that all goods ordered from ICE are Build-to-Order. All orders are Non-Cancelable and Non-Refundable.

7. **Warranty** – ICE warrants all hardware products against manufacturing defects for a period of one year from the date of shipment to the original purchaser. Extended warrantees are available for a fee—contact ICE for details. Software and firmware updates are available for download from our website.

Buyer agrees to the terms and conditions as stated in this document.
